

The Nature of Pi

SUNDAY, MARCH 14 (3.14)

Schlitz Audubon Nature Center wants you to know that celebrating pi day is as easy as pie, on Sunday March fourteenth (yep, that's 3.14), at the Schlitz Audubon Nature Center. Join us as we explore the wonder of math and nature through a wide assortment of interactive games for various ages. Attempt some tower mathematics 60 feet above the ground, try your hand at writing "pi-ku", do some super circular art, hike for a pi kilometer (3.14), check out some Maple mathematics, check out nature's circles and cycles, and when you are finished, don't forget to sample a slice of pie.

SUNDAY, MARCH 14 (3.14)
